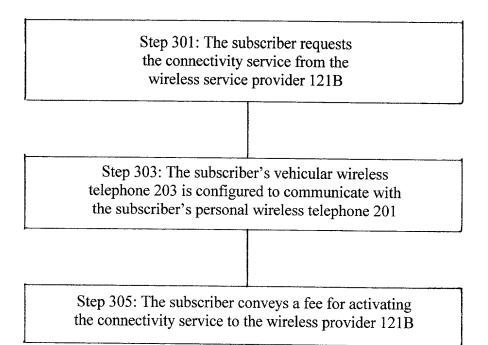

FIG. 3A

Step 307: The subscriber requests the connectivity service from the wireless service provider 121A

Step 309: The wireless service provider 121A requests the wireless service provider 121B to activate the connectivity service

Step 303: The subscriber's vehicular wireless telephone 203 is configured to communicate with the subscriber's personal wireless telephone 201

Step 305: The subscriber conveys a fee for activating the connectivity service to the wireless provider 121A

Step 311: (Optional) Some or all of the fee is transferred from the wireless provider 121A to the wireless service provider 121B

FIG. 3B

Step 401: The subscriber requests that one or more wireless services provided by (or authorized by) the wireless service provider for one of the subscriber's wireless telephones be shared with another of the subscriber's wireless telephones

Step 403: The wireless service provider arranges for the selected service or services to be shared with the wireless telephone designated by the subscriber

Step 405: The subscriber conveys a fee to the wireless service provider offering the service

FIG. 4A

Step 407: The subscriber submits a request to share one or more services to the wireless service provider 121 that services the wireless telephone to receive the shared service or services

Step 409: The wireless service provider receiving the request to share services contacts the wireless service provider that actually provides (or authorizes a wireless carrier to provide) the service or services to be shared

Step 411: The subscriber provides a fee to the wireless service provider from whom the subscriber requested the shared service or services

Step 413: **(Optional)** Some (or all) of the fee is conveyed to the wireless service provider actually providing the shared service or service

FIG. 4B

Step 501: The billing center 113A associated with the personal wireless telephone 201 collects usage information for the personal wireless telephone 201

Step 503: The billing center 113B associated with the vehicular wireless telephone 203 collects usage information for the vehicular wireless telephone 203

Step 503: The billing centers 113A and 113B combine the usage information and generate a bill according to the provisions of the single service plan for both wireless telephones
